## About TWR

TWR is an audio-based exhibition space that streams rotating shows daily via an online server. Each exhibition is accompanied by an opening in physical space. Our hope is to allow students to utilize audio broadcasting equipment to create, challenge, and question sound in art.

Each show will be juried by the TWR Monitors & a guest faculty member.

TWR Monitors are Zoe Kuhn & Kolby Rowland  
TWR Staff Advisor is Renée Rhodes

## PROJECT DETAILS

What form will your project take? (check all that apply)

- performance       installation       video       sculpture  
 live audio       pre-recorded audio       other
